

# DED PROJECTS

## Activity Report for August- September 2009

### Senior High School

School has closed with a successful year of fulfillment. Glory be to God.

We ran a skeleton to accommodate enrichment programs and repairs. Also the construction of the school fence by Lone Star Cell is of great progress.

Some of our scholarship students also participated with the school including painting, carpentry masonry etc. school also participated in the National Flag Day a wonderful time.

Fence was completed on the 10<sup>th</sup> of September 2009. Thanks be to God

School reopens on the 15<sup>th</sup> September 2009 with Administration / Staff and Students excited over their campus. We presently enjoy security because of the fence.

Lesson is well on the way and students are attentive. Please with the maintenance of the campus and buildings.

### Junior High / Orphanage School:

Momentums continue to build up in the minds of students as they become more excited to see how fast progress is being made with the construction of their school building. They are praying that we complete same before the beginning of the year –or latest first semester enrichment programs were also held to keep students busy. Also typing continued to a very large extent that students are happy they learnt some thing.

School reopened on the 15<sup>th</sup> September 09 attended some workshop - very meaningful. We now have school up to senior high now, what an achievement. This means our pay rolls have increased and all other activities. However kids are happy.

It rain rain rain hoods

the opening of school in September 2009 it is already raining but with God and your help we can make it.

We have a good team of workers ready to go the extra mile to get work done.

Our thanks to our friends partners volunteers for the scarifies in helping educating our children also. God bless them.

Activities - met a few schools in foot ball, kick ball, basket ball. Came victorious.

Students continue to visit their school site even with the heavy rains, just to make their presence felt good way spending the vacation.

#### Orphanage

Kids are fine at home and school our children also graduated from typing pool with excellence. They had a wonderful program.

You can be proud of Joshua, Archie, Martha, Varney, and Yatta. They are to continue during the vacation with typing and Home Economics, and hair weaving.

Older boys are preparing to help out with cleaning up and also making their presence felt at the building site, making sure workers are comfortable.

We continue to work with the ministry of health and social welfare we were invited to their work shop, which was great.

#### Faith Works Church

God is still God in our lives as we continue to pray for our projects and all of you who make it possible.

Our members are well, we continue to empower them periodically, as you also aware we sponsor some of the children on our scholarship. They also were successful. We continue all related church programs despite the rains / floods.

All send their love to you all.

Clinic – Papke Faith Clinic

Work goes on at the clinic medical team is doing their best. We continue to cater to the needs of the community our greatest challenge is the purchase of all essential drugs from the meger resources realized at the Clinic.

Our happiness is that God put us in the position to help the less fortunate. For this they are very grateful our appeal would be to find a sponsor who will help with the basic essential drugs and other assistance. Aunty Renate has also been a very good source of help God blesses her.

We still need help in these crucial times of our economy.

Other Project Assistance

Pipe line school / Gomai town ministry / community / others continue to make progress.

We highly appreciate.

Our Challenge

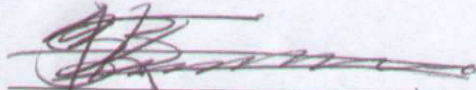

The building of the Orphanage School – please (refer to budget)

The building of the Day Care which is of low cost,

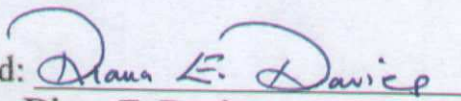

The Farm

Hats off to you all and God bless you.
