Activities for Period April – May 2009. Senior High School.

The Senior High School continues to work effectively academically with Principal and Staff. Students of the 6th, 9th and 12th grades were preparing for their international exam WAEWC. The Ministry of Education stopped by to give a counseling session as to what to expect in terms of appearance and preparation for the exams. Students were very responsive. They participated in several quizzing contests and won all except one. This is a good chance. All extra curriculum activities are blessings for them. The gala celebration was quiet this year. They raise funds to begin the school fence and Lone Star Communication Network has also promise to build the fence under their program. We are thankful to God.

Activities are high and meaningful all major programs are aired by our press club. We also witness the installation of the Student Council Government, blessed by the presence of dignitaries.

Very Important

We have received another invitation from the Government of Liberia/Ministry of Education to participate in the 162 Independence Day the National Flag Day celebration August 24, 2009 parade; we appreciate this gesture to be among the few schools selected.

Junior High School/Orphanage School.

Student continues to progress morally academically spiritually under principal and staff. The 6th & 9th graders also prepared for their international exams on the 24 April 2009 we had our ground breaking for the new school, we were blessed to speak to Annegret Muller on that day. Students/Parents were excited to see God work and to hear from Germany. We are all grateful.

Since the ground breaking we have started the digging of the foundation and have also started the foundation; photos to received. Our challenge we must complete building before September 2009. The rains are in now, and we pray that God will provide for you all to help us.

Work goes on until school is complete. We have a good team of engineers/builders people with the heart for children, so they make sure the lay out of the building is directly the plan. We are excited. We look forward for the day we will have our own. Amen

Activities

They have had a couple of matches and all other activities excite children.

Orphanage

Kids are wonderful at school and home Titi Nyen and Vamayu Nyen children of the blind man Sekou Nyen graduate in July from kindergarten to 1st grade.

Thank you for helping us help them. They are looking forward to a wonderful graduation. Also graduating are your older children from typing pool, they have done very well with typing Joshua, Moses, Archie, Martha, Varney and Yatta.

We pray we can expose them to computer program at the orphanage.

In addition, sewing continue and home art instructor is helping out with the making of some mosquito nets donated to us. Nets are very short so kids and instructor have to add on to make them longer to fit their bunk beds. We were also blessed with the presence of the International Red Cross Committee who came to conduct a workshop for the orphanage on water sanitation.

They have helped us since the beginning with hand pumps, toilets and baths for the kids. They are facing our now so they were nice to think on us. Photos follow. We celebrate children day in June 12, 2009. All is well at orphanage; we continue to contend with the high cost of living and feeding. Thank God you are there for us.

God richly bless you

Faith Works Church

Presently, God is adding to the numbers of the church. Our branch in Gomai Town baptized 16 members. On the 12 of May we celebrated Mother Day and we had a Praise Memorial Service for our mother who passed by was selected mother of the year. Program was well attended and family of the deceased was pleased. The women department donated and dedicated a chair in her memory. The men celebrate Father's Day on the 21 June 2009. Expect a wonderful program.

Clinic – Papke Faith Clinic

Work goes on at the clinic medical team is doing their best. We continue to buy all medication/drugs except for malaria drugs which the government helps with. We continue to cater to the health needs of the community. Pray it will be better. Our thanks to you again for the wonderful work done to help ^{us} exist. Our kids continue to get medical easily and we extend hand to the less fortunate, the community the church as a whole

Other Project Assistance

Pipeline School/Gomai Town Ministry/Community New Kru Town DED empowerment program all ^{us} well we appreciate all of your help.

Our Challenge

- The building of the orphanage school
- The building of the Day Care which is of low cost
- The rehabilitation of the farm continuous efforts are being made

God bless you – Love you dearly and thank you richly.

Please accept our gratitude
